Acknowledgement

On behalf of our beloved organization Green Voice, we would like to thank BANGLADESH ENVIRONMENT NETWORK (BEN) for your generous help BDT 265,000. With this money we have distributed relief materials for 7 days among the extremely poor people all over Bangladesh during the lockdown of Covid-19.

Since its inception in April 18, 2005, Environmentalist youth organization Green Voice are getting all kinds of support from BEN. For your kind information, Green Voice has increased the scope of their work when many organizations have reduced their work due to Covid-19.

With all our ongoing work, we are making hand sanitizers, distributing masks, distributing food, planting trees, conducting online lessons, conducting online cultural activities, distributing food among flood victims & rehabilitating them. Another remarkable work we did, we are building a Girls Team named BONNISHIKHA. In the current year we started a karate training program through BONNISHIKHA, BOLIAN NARI.

Thank you very much for your continued support of our organization. We hope for your continued support in the future.

Regards,

Humayun Kabir Sumon
Central Co-Coordinator
Green voice.
